Once completed, click on the Grade Exam button at the bottom of the page. Your credit will automatically uploaded to CPE Monitor.

### **GOAL**

To review updates on non-flu vaccines and delivering series vaccines in the pharmacy setting.

### **EDUCATIONAL OBJECTIVES**

#### Pharmacist

After viewing this presentation, participants will be able to:

1. Describe the Advisory Committee on Immunization Practices (ACIP) non-influenza recommendations and updates for 2017 and 2018 that guide current immunization practice
2. Discuss opportunities and strategies to provide non-influenza immunizations during peak influenza season including returning to the pharmacy for subsequent vaccines in a series
3. Evaluate a patient's immunization and medical history to provide appropriate vaccine recommendations

#### Pharmacy Technician

After viewing this presentation, participants will be able to:

1. Describe the Advisory Committee on Immunization Practices (ACIP) non-influenza recommendations and updates for 2017 and 2018 that guide current immunization practice
2. Discuss the pharmacy technician's role in non-influenza immunizations and reminders for completing subsequent vaccines in a series

3. Evaluate a patient's immunization and medical history to assist pharmacists with making vaccine recommendations to patients

- **Internet Browser (Mac & Windows):** Internet Explorer 6.0 or higher, Google Chrome, Safari 5.0.6 or higher, Firefox 3.0.3 or higher, & Opera 5 or higher
- **Broadband Internet connection:** Cable, High-speed DSL & any other medium that is internet accessible
- **Peripherals:** Computer speakers or headphones
- **Monitor Screen Resolution:** 320 x 480 or higher
- **Media Viewing Requirements:** Adobe Reader, Microsoft PowerPoint, Flash Player & HTML5

**Disclosure of Unlabeled Use and Disclaimer:** The opinions expressed in the educational activity are those of the faculty and do not necessarily represent the views of Postgraduate Healthcare Education, LLC. Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without an evaluation of their patients' conditions and current medications, including the identification of possible contraindications regarding the dangers of use and a review of any applicable manufacturer's product information, as well as a comparison with the recommendations of other authorities.

The author, sponsor, and publisher of this continuing education activity have made all reasonable efforts to ensure that all information contained herein is accurate in accordance with the latest available scientific knowledge at the time of acceptance for publication. However, because information regarding drugs (their administration, dosages, contraindications, adverse reactions, interactions, special warnings, precautions, etc.) is subject to constant change, the reader is advised to check the manufacturer's package insert for information concerning recommended dosages and potential problems and cautions prior to dispensing or administering the drug. Special precautions should be taken when a drug is new, or highly toxic, or is unfamiliar to the dispenser or administrator. This educational activity may contain discussion of published and/or investigational uses of agents that are not approved by the U.S. Food and Drug Administration (FDA). Neither the publisher nor sponsor promotes the use of any agent outside of approved labeling. Statements made in this monograph have not been evaluated by the FDA. Nutritional products discussed are not intended for the diagnosis, treatment, cure, or prevention of any disease.
